ASEE Annual
Conference &
Exposition

Minneapolis,
Minnesota

June 26 - 29, 2022

Theme

Amplifying the Value of Engineering Management Education

We aim to emphasize work in Diversity, Equity, and Inclusion and strategies in the classroom.

Session Types

The Engineering Management Division (EMD) of ASEE seeks relevant **abstracts** for 1) paper presentations, 2) work in progress flash sessions, 3) workshops, 4) distinguished lecturers, and 5) special sessions.

1) **Paper Presentations**: We seek abstracts for research-based full papers. Accepted papers will be presented in EMD's traditional **technical sessions**.

2) **WIP Flash Sessions**: Flash sessions will contain 7-8 brief (5 minute) presentations with time for discussions and networking afterward. These sessions can focus around a single theme or a medley of topics. Authors wishing to participate in a flash session should submit their abstracts with the title "WIP Flash:" followed by their title and mark the abstract as a work in progress. Authors with accepted abstracts must submit an **extended abstract** as their paper (3 - 5 pages recommended) per ASEE guidelines. Suggested themes include:

- Lessons Learned: Incorporating remote teaching/learning strategies when teaching face-to-face classes
- Innovative use of technology in teaching EM
- Experiential activities in teaching EM
- Best practices in administering EM programs
- Incorporating diversity, equity, and inclusion in teaching and learning.

3) **Workshops**: EMD seeks proposals for workshops to sponsor. Workshops are a great way to dive deeper into a topic and leave participants with tangible outcomes. Workshops typically take place before the conference and cost an additional fee to attend. EMD can sponsor workshops to subsidize their cost for participants. If you are interested in hosting a workshop, please email the program chairs a proposed title, description, and short speaker bios.

4) **Distinguished Lecturers**: Each year, ASEE requests proposals for speakers to serve as Distinguished Lecturers during mini-plenaries. PIC chairs look for speakers that will bring thought provoking new ideas and be of interest to a vast audience. EMD is able to propose and sponsor distinguished lecturer nominations. Please email the program chairs potential nominations with their name, brief description, and why you think they would be a great Distinguished Lecturer at the annual conference.

5) **Special Sessions:** We seek **special session chairs** interested in organizing panels, thematic sessions, workshops, or distinguished lecturers. These organizers are responsible for developing and organizing the session (panel, WIP flash, paper presentations, workshop, or distinguished lecturer) and includes recruiting authors/speakers for their session. **Interested special session chairs should email the program chair their proposed session name, format (panel, WIP flash, paper session, workshop, or distinguished lecturer), brief description of theme, and brief description of sessions' importance to engineering management education.** Sessions using the WIP flash or presentation formats must have authors submit their work as stated above and notify the program chairs of the authors names and abstract titles. Panel and distinguished lecturer request must include proposed speaker(s) in the request and will be reviewed by the EMD leadership team for acceptance.

Submission

Submitted abstracts should be 200 - 300 words in length and will go through a blind review process. The abstract should provide a clear statement of the work's objective and its relevance to engineering management education. Authors should review the "For Author" section of the conference website for more information, which includes the "Author's Kit", plagiarism guidelines, best paper rubric, and more.

All abstract and paper submissions will be handled electronically through ASEE's Paper Management System. Submissions must be completed electronically, and due dates and times indicated on the ASEE website must be met without exception. For additional information, including deadlines and guidelines, refer to: <http://www.asee.org> for the upcoming 2022 conference.

Topics

Topics may include any applications of engineering management as it relates to education and the development of future engineering managers. All topics in the Engineering Management Body of Knowledge (EMBOK) are welcome. This includes, but not limited to: leadership and organizational management, strategic planning, financial resource management, project management, supply chain management, management of technology, etc. Suggested topics in education include, but are not limited to: engineering management program organization, approaches to outcome assessment and program/course effectiveness, workplace applications of engineering management skills and concepts with educational implications (including academic-industry collaboration), engineering management education success stories, innovative teaching practices in engineering management, asynchronous or synchronous learning, and diversity, equity and inclusion. Sessions may be jointly organized with the Engineering Economy, Industrial Engineering, and Systems Engineering Divisions.

Awards

All **full paper** submissions to the division will be considered for the EMD Best Paper Award. This award will be announced at the division dinner and includes a framed award certificate. In addition, all **presentations** made during the conference will be considered for the EMD Best Presentation Award, which will be announced following the conference and recognized at the division dinner during the next annual conference.

We encourage authors to submit papers that may be nominated by reviewers for the **ASEE Best Diversity, Equity, and Inclusion Award**. Please review the award rubric before submitting (<https://diversity.asee.org/deiccommittee/best-paper-rubric/>). Reviewers will nominate papers for this award during the review process. The EMD leadership team will review all nominated papers and select one to be considered by the Commission on Diversity, Equity, and Inclusion.

Reviewer Obligations

Authors submitting to EMD will be asked to review both abstracts and papers for the division. Those who are unable to fulfill this commitment by the timelines required may have their own papers rejected by the session chair, regardless of paper quality. EMD is a publish-to-present division. Both abstracts and papers must be accepted to present at the conference.

Important Dates

Description	Date
Abstract Submission Open Workshop Application Open Distinguished Lecture Application Open Panel Session Application Open Session Requests Open Abstract Reviewer Assignment Open	October 11, 2021
Abstract Submission Closed	November 8, 2021
Abstract Review Deadline Session Request Deadline Workshop Request Deadline Distinguished Lecture Deadline Panel Session Request Deadline	November 22, 2021
Abstract Acceptance or Decline Notification	December 6, 2021
Housing and Registration Open	January 17, 2022
Draft Paper Submission Deadline	February 7, 2022
Blind Draft Paper Reviews Deadline	February 28, 2022
Blind Revision Deadline	March 28, 2022
Paper Accept or Decline Deadline	April 1, 2022
Best Paper Award Nominations Deadline Author Registration Deadline Upload final paper Deadline Early Bird Registration Deadline	May 16, 2022
Attend Conference	June 26 - 29, 2022
